sammenslutningen  
Rigshospitalet

July 22, 2021

Dear colleague

On behalf of Rigshospitalet's Professor Society and The Neurocenter, it is our great pleasure to invite you to the celebration of **The Brain Prize 2021**.

**Date: September 22<sup>nd</sup>, 2021 from 16.00-19.00**

**Place: Holst Auditorium, Mærsk Tower, Panum Institute, Blegdamsvej 3B, 2200 København N**

The Brain Prize from Lundbeck Foundation is the world's largest prize dedicated to outstanding neuroscientists and in 2021 it was awarded to Prof. Lars Edvinsson, Michael Moskowitz, Peter Goadsby and Jes Olesen for their groundbreaking work on the causes and treatment of migraine.

It is also extraordinary that both Prof. Lars Edvinsson and Prof. Jes Olesen are employed and affiliated to Rigshospitalet and The University of Copenhagen. We aim to honor their fantastic achievement and lifelong dedication with this celebration seminar.

The seminar starts with a presentation of the work that led to The Brain Prize 2021 and is followed by short presentations from the next generation of neuroscientists from The Research Park. There are excellent possibilities for translational research and collaboration across specialties and we look forward to a great discussion and interaction.

Please see the attached program for further details.

The seminar will be followed by a reception.

Kind regards and on behalf of

The Professor Society, The Neurocenter and Rigshospitalet

Anders Juul and Rigmor Højland Jensen
